ECOLOGICAL CIVILIZATION: Exploring China as a Model

Join us for a K-14 educators companion online program to the 2020 Summer Institute for Chinese Studies (SICS) at the University of Pittsburgh. The curriculum workshop will provide a historical overview of China’s relationship with the environment, ways to integrate it into the classroom and preview presentations by select 2020 SICS scholars. Participating educators will then be encouraged to attend online the key presentations of the summer institute.

SATURDAY MAY 30
9AM - 12 PM
